Abhishek Thakur

CAREER OBJECTIVE

Driven by a desire to learn and grow, I am actively seeking an opportunity where I can leverage my potential and contribute to the success of a forward-thinking company. With a strong foundation in front-end development and a passion for cutting-edge technologies, I am eager to take on new challenges and make a meaningful impact.

EDUCATION

- Master of Computer Applications (MCA)
Jain University,

Currently pursuing a Master's degree in Computer Applications, with a focus on advanced programming concepts, software engineering, and data management. Leveraging coursework to gain proficiency in developing robust and scalable applications, as well as honing problem-solving and analytical skills. Actively engaging in projects and coursework to stay current with emerging technologies and industry best practices.

- Graduation From MG College Ashta
- 12th Passed from M.P. Board Bhopal
- 10th Passed from M.P. Board Bhopal

Technical Skills: Full Stack Web Development

As a skilled and passionate full-stack web developer, I possess a diverse set of technical skills that enable me to create dynamic and user-friendly web applications. My expertise spans both frontend and backend development, allowing me to deliver seamless and engaging digital experiences. Here's an overview of my key skills:

Node.js & Express.js:

Proficient in building robust backend systems using Node.js and Express.js. I've developed RESTful APIs, implemented authentication and authorization mechanisms, and optimized server performance for efficient data handling.

React.js:

Experienced in creating responsive and interactive user interfaces using React.js. I've developed reusable components, managed state effectively with hooks and context, and integrated third-party libraries for enhanced functionality.

JavaScript:

Adept at using JavaScript to craft client-side functionality that enhances user interactions and overall application performance. Familiar with ES6+ features and best practices for writing clean and maintainable code.

MongoDB:

Experienced in working with MongoDB, a NoSQL database, to design data models, perform CRUD operations, and create efficient queries. Proficient in handling data relationships and ensuring data integrity.

HTML & CSS:

Strong command of CSS and HTML, enabling me to translate design mockups into pixel-perfect and visually appealing web interfaces. Skilled in responsive design techniques for seamless user experiences across various devices.

API Calls:

Experienced in making API calls and handling responses using asynchronous techniques. Proficient in making asynchronous API calls using various methods such as Axios or the Fetch API. Skilled in handling API responses, data parsing, and error handling to ensure smooth data integration.

Bootstrap

Well-versed in utilizing Bootstrap to expedite the development process by implementing pre-designed UI components and responsive layouts. Able to customize Bootstrap components to align with specific project requirements.

I have a strong attention to detail, a knack for problem-solving, and a passion for staying up-to-date with the latest industry trends. I thrive in collaborative environments and am dedicated to writing code that's not only functional but also maintainable and scalable.

I am excited about the opportunity to contribute my skills to innovative projects and to continue growing as a developer in the ever-evolving world of web development.

WORK EXPERIENCE**Full Stack Web Development Training**

Code Mantra, [indore]

Duration: 6 months

Completed an intensive 6-month training program in Full Stack Web Development at Code Mantra. Gained hands-on experience in designing and developing dynamic web applications from the ground up. Acquired proficiency in a wide array of technologies including Node.js, Express.js, React.js, MongoDB, JavaScript, CSS, HTML, and Bootstrap. Collaborated on team projects to enhance problem-solving skills and refine the ability to create responsive and user-centric applications.

Web Development Internship

Codemeg Soft Solutions Pvt. Ltd., Indore

Duration: 3 months

Engaged in a dynamic 3-month internship at Codemeg Soft Solutions Pvt. Ltd., contributing to real-world projects that provided valuable insights into professional web development practices. Collaborated with senior developers to build and maintain web applications, enhancing skills in both frontend and backend technologies. Gained practical experience in version control, code review processes, and agile development methodologies. Effectively communicated with team members to ensure project goals were met within deadlines.

During both experiences, I was able to not only apply the technical skills I had acquired but also develop a deep understanding of collaborative workflows, client interactions, and the importance of clean and maintainable code. These experiences have fortified my passion for web development and equipped me with the practical knowledge required to contribute effectively in a professional environment.

PERSONAL PROFILE

1. Date of Birth : 02-Mar-2002
2. Marital Status : Unmarried
3. Permanent Address : Th. Ashta , Dis. Sehore , Bager M.P.
4. Language : Hindi , English
5. Hobbies : Keep learning , Morning Running & Workout

DECLARATION

I attest that the information provided above is true and accurate to the best of my knowledge.
