ACADEMIC PROJECTS

Veggies Website (Using Frontend Technology)

° This website is designed to sell fresh Vegetables where the user can take many benefits such as offers of vegetables, fresh fruits and fresh juice, combo offers and coupon's etc.

Digital Dustbin (Using Internet of Things)

° Here a dustbin connected with WiFi which opens its lid automatically when we bring our hands near it and closes automatically after the hand is removed also ,they give warning with light-bulb when the bin is full.
