

Rishabh Rathod

Web Developer

About me

As a recent graduate with a Bachelor of Technology in Computer Science, I am eager to kickstart my career in software development through a developer internship in Indore. I am dedicated, quick to learn, and motivated to contribute to a dynamic team while gaining practical experience in the field.

Projects

Tesla Clone Project

Description

Recreated the Tesla website using React and Redux to enhance web development skills, focusing on UI design and key features.

Technologies Used

React, Redux, HTML, CSS, Netlify

Achievements

Successfully emulated Tesla's website design and functionality, hosted on Netlify. The project is hosted on Netlify at [Tesla Clone](#).

Weather App

Description

Developed a web application for checking current weather conditions, incorporating geolocation and user-friendly design.

Technologies Used

HTML, CSS, JavaScript, OpenWeatherMap API, Netlify

Achievements

Integrated geolocation for automatic local weather updates, hosted online. Hosted the project online at [Weather App](#).

World-Travel Website

Description

Designed and developed the World-Travel website to inspire and inform travellers, handling the entire web development process.

Technologies Used

HTML, CSS, JavaScript

Achievements

Created an attractive and user-friendly travel website, accessible online. The website is accessible at [World-Travel Website](#).

Responsive Coffee Website

Description

Designed and developed a responsive coffee-themed website for an engaging scrolling experience.

Technologies Used

HTML, CSS, JavaScript

Achievements

Implemented responsive design for seamless viewing on various screen sizes, hosted online. The website is accessible at [Responsive Coffee Website](#).
