Clone of Apple Website

- I have created this website on the basis of practice so that I can present my work.

Clone of Disney+ Hotstar

- Our clone is very similar to the original Disney plus website. It is only one page(homepage) website. It has navbar and search box with cool click effect same as Disney+. Which was very hard for me to make at first.

ToDo List(React.js/Next.js)

- I developed a robust ToDo List application that offers a seamless user experience with advanced features, including Create, Update, and Delete functionalities.

Internshala Clone(MERN)

- I'm currently working on an exciting project of Internshala, where I'm harnessing the power of MERN stack technologies.
