---

### PROJECTS

---

- Job Seekers Application- Job seeker act as a portal between job seekers and recruiters. It is helpful for fresher as well as young graduates, to get state with their career. Using job seeker, one can search job managing his or her qualification and appear for the selection process on the application Is being registered and accepted.
- Crowd funding website using Blockchain – Blockchain crowdfunding platforms usually charge lower. Fees than traditional crowdfunding platforms, as they do not require intermediaries to facilitate transactions. This means more funds are available to support crowdfunded projects or businesses.
- Blood donation website- The main objective of the online blood donation management system is to keep track of information about donors, blood banks, blood groups, and blood seekers.

---
