PROFFESIONAL SUMMARY

Hi, I am highly motivated and talented Java Full Stack Developer with a passion of software development and a strong foundation in both front-end and back-end technologies. As a recent graduate with a degree in Computer Science. I am eager to apply my skills and knowledge to contribute effectively to innovative projects and deliver exceptional solutions.

EDUCATION

MITS, GWALIOR   Gwalior, MP
B.tech in Computer Science and engineering   *Aug. 2019 – May 2023*

EXPERIENCE

JAVA FULL STACK DEVELOPER   Jan 2023 – May 2023
SKY TECHNOSOFT PVT. LTD   *Indore, MP*

- Developed and maintained java applications, demonstrating proficiency in core java OOPS principles
- Collaborated with a cross-functional team to understand project requirements, contributing to the design and implementation of new features.
- Debugged and resolved issues within existing codebase, enhancing application performance and user experience.
- Utilized version control tools like Git to manage code changes, ensuring smooth collaboration and tracking of code history.
- Assisted in the optimization of database queries, resulting in improved application response time and efficiency.
- Worked on front-end and back-end tasks, gaining exposure to full-stack development and enhancing my understanding of the software development lifecycle.
- Integrated external API and libraries into projects, expanding functionality and enabling seamless interaction with external systems.

PROJECTS

E-commerce website / *Java, Spring boot, React, MySQL, react-bootstrap, Github*   Feb 2023– April 2023

- Developed a full-stack web application using with Spring boot serving a REST API with React as the frontend
- Developed a Java application simulating an e-commerce website, implementing user authentication, product catalog and shopping cart functionalities.
- Developed a dynamic shopping cart feature that allows user to add, remove, and modify items in their cart in real time.
- Created a set of Restful APIs using spring boot, enabling communication between the front-end React applications and backend server.
- Integrated a secure payment gateway to facilitate secure and convenient online transactions.

Text editor / *react, Bootstrap, HTML, CSS, Github*   May 2023 –June 2023

- Implemented a rich text editor with features like text formatting(bold, italics, underline), alignment options, bullet and numbered lists, and more.
- Leveraged bootstrap responsive grid system to ensure that the text editor website was accessible and functional on various devices, from desktops to tablets and smartphones.
- Implemented mechanism to allow users to save their work and load previously saved documents.
- Designed an intuitive user interface with clear labels and icons, making it easy for users to navigate and understand the txt editing features available.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, MySQL, Mongodb

Frameworks: React.js, Node.js, Junit, spring boot, Spring MVC, Angular.js
Developer Tools: Git, Docker, AWS, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse, STS
Libraries: pandas, NumPy, Matplotlib, express.js
