As an experienced Test Engineer, I have the capability to train other team members and carry out comprehensive reviews throughout all phases of both the Test Development Cycle and Test Cycle. My track record has shown great effectiveness as both a team leader and a collaborative team player. Additionally, I have also been responsible for overall Automated Test Execution, which proved to be immensely successful. My strength lies in Interpersonal communication, resource segregation/utilization, thorough attention to quality, planning and contributing to planning and implementing testing layouts and approaches that are efficient.
